

COMPANY PROFILE

Introduction

Max Power is the leading solar energy provider in Pakistan, offering top-of-the-line products and services that can be tailored to meet your individual needs. Our experienced team of professionals is dedicated to delivering the highest quality.

About Max Power

Max Power is a solar energy company that specializes in providing solar energy solutions to businesses and individuals in Pakistan. We offer various solar energy products and services, including residential, commercial, and industrial solar solutions.

The company installed the largest solar power generation project in the country with an installed capacity of 500MW. Max Power has also developed the country's first Italian technology based solar panels manufacturing plant.

Our Products

The company offers a wide range of solar energy products and services to consumers and businesses in Pakistan. As the best solar energy company in Pakistan, we are dedicated to giving customers high-quality goods and services that either meet or surpass their expectations. Our products range include

- PV Solar Panels
- Solar Inverters
- Ongrid Inverters
- Hybrid Inverters

Our Projects

We can announce with gratitude that Max Power has served its clients all over Pakistan in every field. Whether it is Residential solution or Commercial Max Power with its ability to provide quality services have successfully gained the trust of customers. While gaining trust in commercial and residential sector our services are acknowledged in every sector like Industries, Educational institutes, Hospitals, Mosques etc. Now we can proudly say we have enlightened the ecosystem of Pakistan by installing more than 500 Solar Systems till date and we wish to continue more.

What We Offer

Residential Solutions

Max Power having a team of skillful engineers and technical staff all over Pakistan is in a mission to reduce the high electricity bills and is always ready to provide quality and state of the art services and solutions to the residents of Pakistan.

Commercial Solutions

Our commercial solar solutions in Pakistan allow you to power your workplace with efficient solar power systems thus, replacing high-cost conventional energy.

Agricultural Solutions

Fulfilling your agricultural needs with load shedding and high-cost conventional energy is not a good idea anymore. Let us put your farming on reliable solar energy.

Customer Care Services

At Maxpower, we pride ourselves on being Pakistan's leading solar system solutions provider. Our commitment to quality continues after our top-notch solar panels and inverters. We understand the importance of customer care and are dedicated to providing exceptional maintenance, repair, and support services.

Comprehensive Maintenance Plans

- Regular inspection of solar panels and inverters
- Thorough cleaning of solar panels to maximize efficiency
- Periodic system performance assessment and optimization

Expert Repair Services

- Skilled technicians to address any system issues
- Efficient troubleshooting and problem resolution
- Genuine replacement parts to ensure longevity and performance

Warranty Protection

- Hassle-free warranty claims and processing
- Extended warranty options for added peace of mind
- Prompt service to minimize system downtime

Choose Maxpower for exceptional customer care, and rest easy knowing that your solar system investment is in capable hands. Our commitment to excellence ensures you enjoy a sustainable, reliable, and efficient energy solution for years.

Pakistan's First Onsite Italian Solar Manufacturing Plant

The manufacturing plant is located in the remote industrial site, in Raiwind, boundaries' with the provincial capital Lahore. It is Pakistan's first Italian Solar Manufacturing plant which is producing its own Solar Panels, Our Italian plant is now successfully giving 50 Megawatt per year production. Max Power is making progress in enhancing this plant to serve our valuable customers at highest level to maintain the quality and trust amongst all.

Our Italian solar plant is promising in producing high quality Solar Panels (Mono and Poly Crystalline)
